EXPERIENCE

Software Developer

Nov 2024 – Present

SinaLite (Sina Printing Inc) · Toronto, ON

B2B packaging portal · Lead developer

Mar 2026 – Present

Lead and main developer, in a team of five, of a customer and staff portal for custom packaging. Built from the first commit to production launch, it replaced a manual process spread across several systems and email.

- Quote-to-order workflow: product configuration, staff pricing and review, artwork proofing, customer approval, checkout and production tracking.
- Role-based access across 10 roles, with each customer's data isolated to their own company.
- Integrated pricing, ERP credit checks, production and shipping systems, using queued jobs, retries and two-way status sync.

Laravel 12 · React 18 · Inertia.js · TypeScript · Tailwind CSS · shadcn/ui

- Built real-time features with Laravel Reverb and WebSockets for live order and status updates.
- Designed and integrated RESTful APIs and webhooks for third-party systems and print-order automation.
- Shipped internal dashboards and UI from scratch—data viz, filters, and responsive layouts with React and Tailwind.
- Delivered a full CAPA (Corrective and Preventive Action) module and async queue pipelines with retry and monitoring.

Web Developer

Jul 2022 – Nov 2024

SinaLite (Sina Printing Inc) · Toronto, ON

- Led the transition of FedEx and UPS integrations from SOAP to RESTful APIs.
- Architected data warehouse solutions to streamline reporting.
- Maintained and optimized internal PHP/MySQL applications for production teams.

Software Developer

Feb 2018 – Mar 2020

La Global Pvt Ltd · Bangalore, India

- Designed, developed, tested and debugged new software applications, and wrote the documentation for new and updated software.
- Wrote, modified and integrated code for e-commerce, web and mobile applications, built on HTML, CSS, JavaScript and PHP.
- Designed, built and managed MySQL databases for efficient data storage and retrieval.
- Analysed existing systems to plan new installations and modifications, and ran regular maintenance to keep them reliable.

SIDE PROJECTS

ZenStack

zenstack.space

Chrome extension that turns the new tab into a market dashboard: live stock watchlists, a portfolio tracker and a market bar, alongside Kanban-style bookmark boards. Privacy-first, synced through Chrome, no ads.

Manifest V3 · Vanilla JS (ES Modules) · Chrome APIs · Vite · Vitest

GetFullPage

zenstack.space/getfullpage

Chrome extension for screenshots: the full page, the visible area, or an area you select. Annotate, blur and crop, then save as PNG, JPG or PDF, or copy to the clipboard. Nothing is uploaded; everything stays on your computer.

Manifest V3 · Vanilla JS · Chrome APIs · IndexedDB

CloseGuess

closeguess.com

A daily word-distance game (similar to Contexto) where players guess words and get feedback based on semantic similarity to a secret word. Includes daily puzzles, Journey mode, and Postgres-backed rankings.
